

FRANCHISE OPPORTUNITY

WHY FRANCHISING

Lower startup costs

Starting a new business from the ground up can be incredibly expensive. A franchise business is a cost-effective investment.

Easier financing

Many banks don't want to take a chance on new small businesses, but a well-known franchise is a much safer bet for lenders.

Brand recognition

A new business is exactly that to potential customers—new. When you start a franchise business, you'll have the name recognition of an existing company.

Training & Support

Starting a business can be tough, as a franchise you'll have the knowledge and support of an experienced partner behind you.

Having run my franchise for nearly 4 years, I am in a great position to look objectively at my experience. Of the many benefits that come with being a franchisee, I am most grateful for the opportunity to be a part of a network made up of fantastic individuals.

Ian Pollard, Megasealed South Coast

I started my Megasealed journey as a sales consultant with Megasealed Bathrooms Australia. I was given the opportunity to buy a franchise, 4 years ago, and there has been no looking back ever since I made my decision. Being a franchise owner has changed my life and I am now the proud owner of several successful franchise locations.
